The Problems

Although, Cryptocurrency is becoming more relevant in today's financial sector, there is no seamless way to buy properties or invest in real estate directly with Cryptocurrency. Investors have always hinged on fiat Currencies and Banks.

01

Real estate agencies and websites show their pricing in fiat currencies and traditionally do the deal. Which makes it almost impossible for crypto holders to invest in such sectors directly. Even if there are options, they are not simplified.

02

Banks and other legislative organizations impose rules and regulations on crypto based transactions. Large scale crypto Investors, often find it difficult to get the best out of their investment.

03

Introducing NerveFlux

NerveFlux builds a system where properties can be bought directly with Cryptocurrencies.

At NerveFlux, we are developing a seamless system where everyone would be able to buy properties without converting cryptocurrencies to fiat. To accomplish this, NerveFlux will launch NerveFlux Marketplace along with Nerve coin, NerveFlux Governance coin, and NerveFlux NFT.

NerveFlux Marketplace Partners will be able to list their properties in popular Stable Coin and Crypto. Investors will be able to invest in Real Estate without converting crypto to fiat. NerveFlux Marketplace will also empower users to rent houses with crypto.
