Introduction.

The rise of blockchain technology has resulted in many concepts of decentralized digital assets. Among all of them, cryptocurrency is the most popular, and it has been around for decades.

Global interest in cryptocurrency is skyrocketing day by day. According to data from *CoinMarketCap*, there are currently more than 7,800 crypto projects. But not all of them serve the same purpose. Many cryptocurrencies are created for human freedom and financial inclusion. Such as Bitcoin and Ethereum. On the other hand, there are dozens of meme coins such as Dogecoin and Shiba Inu.

NerveFlux is backed and under development of a registered Company in Italy. The idea of the NerveFlux project is to build an ecosystem where everyone will be able to buy a property or invest in property without converting cryptocurrency to fiat. NerveFlux Marketplace will list properties in Nerve and other popular coins. The Marketplace Partner Program will let real estate agencies list their properties and get exposure in the crypto world.

The Problem.

In a report, *Crypto.com* estimated that around 106 million people are using cryptocurrencies around the globe. A large number of people invest in crypto to fulfill their dreams of buying a property. Another group of investors invests in real estate alongside cryptocurrency.

There is no seamless way to buy properties or invest in real estate directly with cryptocurrency, making fiat currency and bank transitions the only option.

Also, real estate agencies and websites show the pricing in fiat currencies and traditionally do the deal. Crypto Investors and holders need to convert their crypto to fiat to buy or invest in real estate.

The Solution: NerveFlux.

Mission and vision of the NerveFlux project is to develop a seamless system where everyone will be able to buy properties without converting their cryptocurrencies to fiat. To accomplish this, NerveFlux project will launch NerveFlux Marketplace along with Nerve Token, NerveFlux Governance Coin, and NerveFlux NFT.

NerveFlux will be incorporated in multiple countries: Italy, Germany, Croatia, Spain, Nigeria and other selected countries for a start. NerveFlux Marketplace partners will be able to list their properties in popular stable cryptocurrencies.

Consumers will be able to buy them without converting any crypto to fiat. Furthermore, people will be able to rent houses through NerveFlux Marketplace.

The Marketplace will also allow payments with local currencies. It will ensure that the NerveFlux project is going to be the go-to solution for everybody.

NerveFlux intends to be that bridge between cryptocurrency and fiat currency in the real estate business.

Nerve **Token Details.**

Token Name: NerveFlux.

Ticker: NERVE.

Blockchain: Binance Smart Chain (BSC).

Nerve Contract address:

0x8c21cef3c0f25e7fa267e33602702e3f91775360

Decimals: 18

Tokenomics.

- Private sale - 5%
- Public Presale - 5%
- Locked liquidity Support - 5%
- Whitelisted Presale - 3%
- Project Development and Support - 25%
- Burn - 15%
- Marketing - 17%
- Partnership - 5%
- Staking and airdrop - 12%
- Team - 6%
- Charity - 2%

Tokenomics Breakdown.

Maximum Token Supply:

200,000,000 (200 Million)

- Private Sales will be vested for one (1) year after Private Sales event.
- Public Presales will begin with a starting price as seen on our official website.
- Project Locked Liquidity Support: Allocated Token will be used to support liquidity funds raised from public Presales.

70% of all funds raised during the NerveFlux public presale will be allocated to PancakeSwap Liquidity Pool. Initially, we planned to lock it for 5 years.

Liquidity should not come with uncertainty, what happens after 5 years? What if there is a

change in management within the 5 years? These are your share of investments that should not be within the control of the project team or owners.

Liquidity should be owned by the public.

At NerveFlux, we have decided to protect your investment from RugPull. Liquidity will be locked forever.

LP token will be permanently burnt. This will automatically protect the liquidity from RugPull.

■ **Project Development and Support:** 15.5% of allocated Token has been locked for an initial period of 3 years with TrustSwap. The balance will be locked for 5 years with pinksale.

■ **Burn Explanation:**

We are implementing Nerve Token burn to ensure an increase in value and scarcity of Nerve Token over time. Another 2.5% of Nerve Maximum Supply will be permanently burnt after listing in Centralised Exchange.

A total of 15% of Nerve Maximum Supply has been allocated to be permanently burnt.

■ Marketing, Adverts and Partnership: Allocated Token will be used as needed.

■ Staking and Airdrop: All Token allocated for staking and airdrop will be locked for 6 months.

■ Team: The team deserve reward for their hard work. To ensure no dumping on open market the allocated Token has been locked for four (4) years.

■ Charity and Climate Emergency: Token allocated to Charity and Climate Emergency has been vasted for 18 months.

■ Tax Explanation:

There will be a 5% tax on all transactions.

- TAX BURN 60%.
- Tax to Liquidity pool 20%.
- Tax to to Staking wallet 10%.
- Tax to Charity wallet 10%.

Fund Usage.

- 60% - Project development, Training and Recruiting in Local territories.
- 30% - Marketing, Branding and promotion and partnership.
- 6% - Legal and Administration.
- 4% - Unexpected emergency.

For transparency and accountability, NerveFlux will make public audit reposts by independent, European-based auditors.

Hyper Inflation Mechanism.

According to news.bitcoin.com, in 2020 the inflation rate of Bitcoin was 2.5%. [lccrypex.com](https://www.lccrypex.com) shows the inflation rate of Ethereum was 3.77%. That's why we build a mechanism to fight back the inflation rate of the Nerve token and help reduce it.

A total of 20% of circulating Nerve Token will be burn over time to mint NerveFlux Governance, NFT and our partners' Token which will further reduce Nerve Token Total Supply.

Our goal is to make Nerve Token a scarce Token. To increase value and curb potential inflation we have introduce a permanent burn mechanism. Unlike most Token that have defined Total Supply, Nerve token has no fix Total Supply since it will be reducing in quantity due to the 60% of 5% tax imposed on all transactions that will be permanently burn.

NerveFlux Marketplace.

There are more than 7,800 cryptocurrencies and over 100 million users. On the other hand, real estate is considered one of the largest industries all over the globe. NerveFlux Marketplace *www.NerveFlux.com* will act as a bridge to link real estate to the crypto world.

The goal of NerveFlux Marketplace is to expose real estate to the crypto world. People will be able to buy and invest in real estate directly with their cryptocurrencies, with no need to convert to fiat. In addition to that people will be able to rent houses with cryptocurrencies.

Built on Binance Smart Chain (BSC) NerveFlux Marketplace will use escrow service to provide a simplified and secure gateway to Real Estate investment. It will make the transitions easier and faster. Also with BSC technology, it will be much more secured and safe.

There will be a Partner Program where real estate agencies will be able to list their properties in NERVE, and other popular cryptocurrencies.

NerveFlux will work with local authorities and abide by regulations in a bid to provide excellent service.

There will be a 5% discount on every payment made with Nerve token through the NerveFlux Marketplace. It will ensure our clients/users get the best possible deal daily.

NerveFlux _ Charity Program.

NerveFlux charity program is working on building a better world for the future. Every community member can be part of it and contribute to a better ecosystem for everyone.

How does it work?

The charity program team will plant trees in different parts of the world to help fight climate change. Everyone who participates in the charity program will have a tree planted and tagged with their wallet address.

How to enter?

Anyone who holds Nerve Token for more than 120 days will automatically be part of the NerveFlux Charity Program.

Project Roadmap.

4

Q3 2022

- 🌿 Release of NPMP whitepaper
- 🌿 NerveFlux Property MarkPlace (NPMP) web Launch

5

Q4 2022

- 🌿 Release of NerveFlux NFT whitepaper
- 🌿 NerveFlux NFT Launch

6

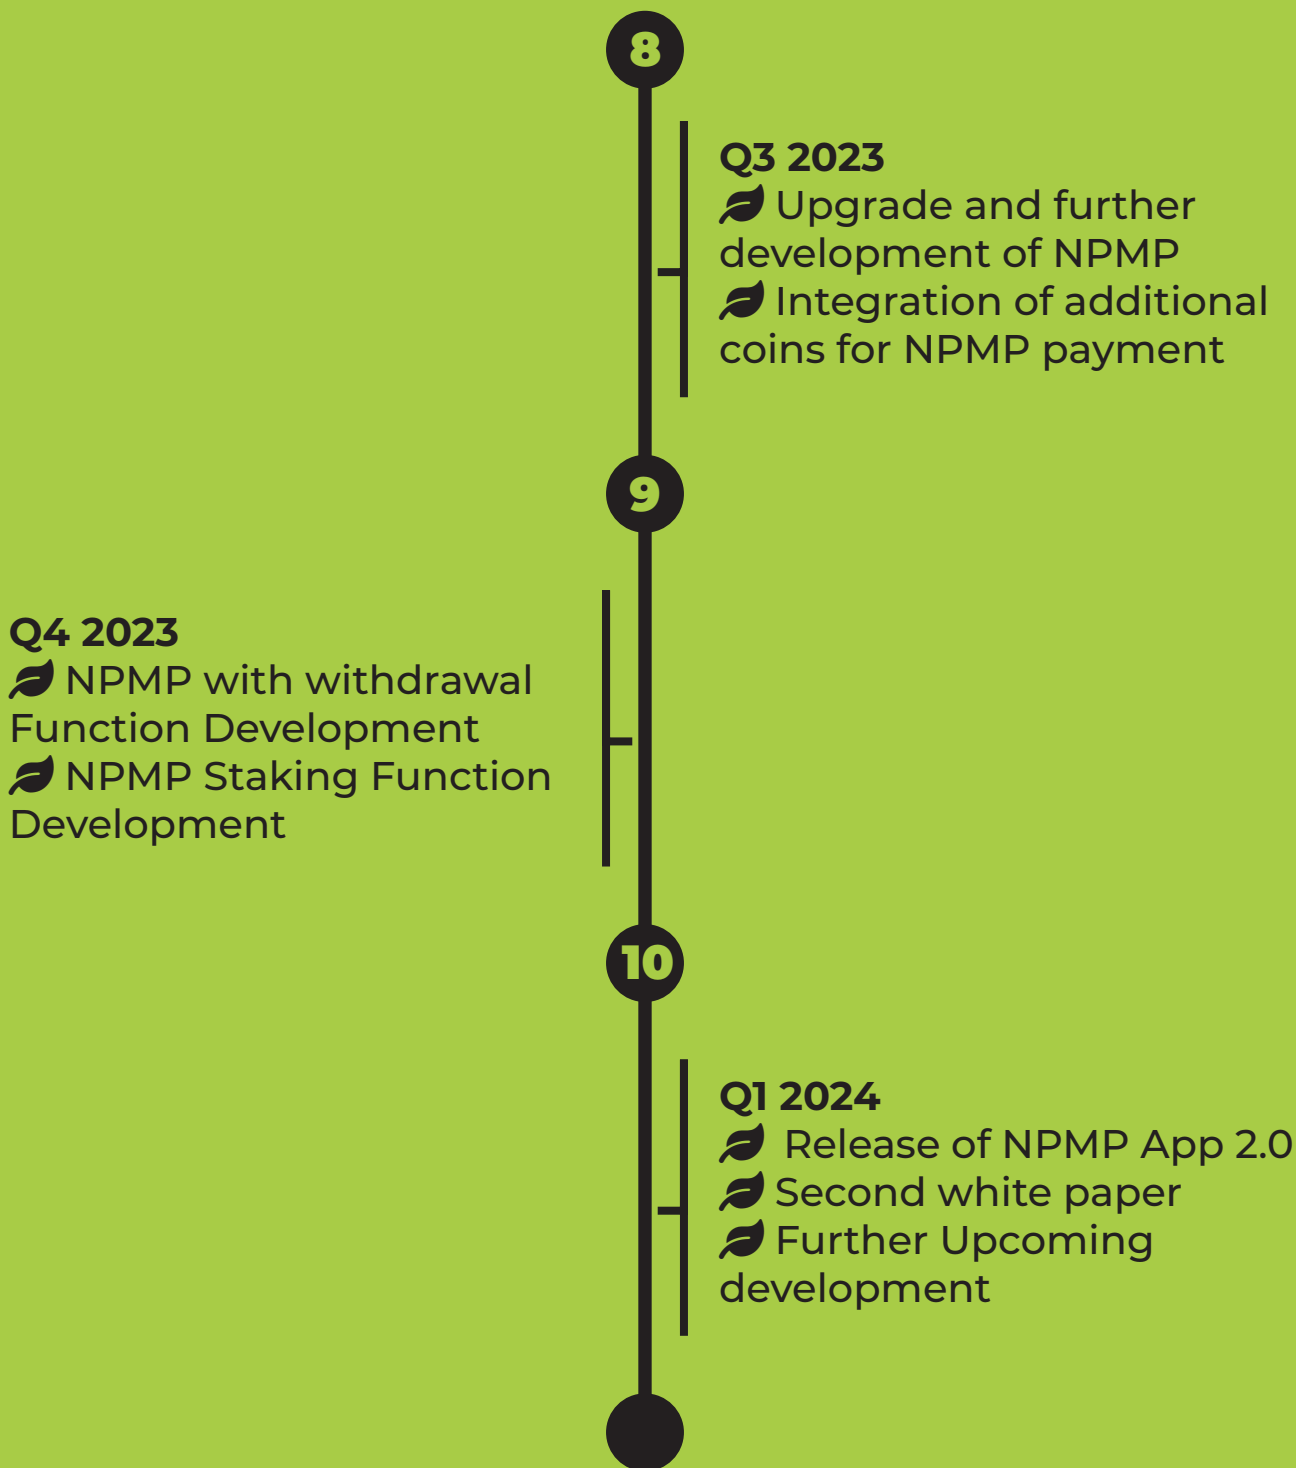

Q1 2023

- 🌿 Development of NPMP App
- 🌿 Launch of NPMP App for Andriod
- 🌿 Launch of NPMP App for Apple

7

Q2 2023

- 🌿 Release of NerveFlux Governance Coin whitepaper
- 🌿 NerveFlux Governance Coin Launch

Early Investor benefits.

A decorative graphic of white circuit lines with dots at the ends, branching out from the top right corner of the page.

There will be a reward for early investors in form of Airdrop. Every holders of Nerve token will be eligible to participate in the airdrop reward based on the number of coins they hold.

Furthermore, in the future, as more Governance coins and NFT coins are minted, every nerve wallet address will get rewards in the form of Governance coins and NFT coins.

Full details of the airdrop will be provided afterward on the website. Please keep an eye on the "Early Investor Benefits" pdf.

Conclusion

Having seen all the challenges and the difficulties involved in trying to purchase a house with cryptocurrency, the NerveFlux project was born. NerveFlux is here to offer a less stressful and more convenient way of paying for property with cryptocurrency.

We know the challenges involved in the crypto world, the volatile nature, and the risk involved. We intend to take on the responsibility in a way that in the end both the seller and the buyer are happy and contented.
